

Environmental Policy

of

Lakireddy Bali Reddy College of Engineering

(Autonomous)

Mylavaram – 521 230

Policy Statement

LBRCE major initiative is to introduce the environmental stewardship by inculcating the responsibility for environmental conservation by every stake holder of the institute. LBRCE strives to increase and promote awareness of environmental issues among the students and staff. It is also the basic principle of the institute to conserve and protect the environment by understanding the fundamental interrelationship between the environment and the society and strive towards the sustainable development.

While implementing the Environmental Policy, LBRCE has the following objectives:

Action Plan:

- Conduct of green and environmental audit once in a year and internal audit once in six months.
- Minimize the use of paper in the office to reduce carbon footprint on the campus
- Protect water table by rain water harvesting methods.
- Make the college campus plastic and Tobacco free.
- Create awareness among stakeholders to understand environmental issues by planning and conducting different activities through Prakruthi - The Environmental Club of LBRCE.
- Abide by all the applicable environmental, health, and safety laws, as well as regulations and other requirements stipulated by the Govt.
- Implement effective pollution prevention and waste minimization programs in order to reduce, reuse and recycle materials.
- Maintain pollution free campus with proper utilization of available space for tree plantations and good drainage system.
- Establishment of composite unit in the campus.
- Participate in Green Campus Award.

The Institute shall continuously review and update the approved policy and is committed to its implementation.
