Report On “Induction Programme for I B.Tech Students”

Event Type	:	Induction Programme
Date / Duration	:	25-06-2018 & one day
Resource Person	:	Dr. E. Sreenivasa Reddy, Principal, UCE, ANU, Guntur.
Name of Coordinators	:	Mr. T. Udaya Kumar.
Target Audience	:	B.Tech. I Semester Students
Total no of Participants	:	400
Objective of the event	:	The Main Objective of this Induction Programme is to allow the students to know the importance of engineering education and the kind of opportunities that this course offers once they finish off.

Outcome of event

On completion of this Induction Programme Student can able to:

1. Know the importance of Engineering Education.
2. Analyse the kind of opportunities that he/she will get.
3. Motivate himself and others about Engineering and its allied.

Description / Report on Event: Students entering Engineering Education are coming into a new and unfamiliar environment, and many do not yet know what it means to be a University student. With increasingly large class sizes, it may not be possible for a lecturer to tailor material to a diverse audience, where each individual has their own prior experiences of learning and their own assumptions about what it means to be a student in Engineering Education.

An induction process which clarifies for all students the relative responsibilities of teacher and student, which creates an atmosphere of open experimentation where all students can be open about what they see as barriers to their learning, and which begins the work of helping students to develop effective learning strategies, is likely to go far towards helping all students.

Feedback / Suggestions :

1. Now, I get rid of all fears in mind after going to this induction programme.
2. Feeling so happy for being a part of this event.
