

A Guest Lecture on “A Popular Lecture on Brushless DC Drive”

Recent developments of permanent magnet materials, solid-state devices and micro-electronics have contributed to energy efficient electric drives that use modern permanent magnet brushless DC Motors. In this context a Guest Lecture on “A Popular Lecture on Brushless DC Drive” is organized by EEE Department on 22nd September, 2014 for students and faculty of the department. Resource person is Dr.P.V.R.L.Narasimham, Professor and HOD of EEE Department of V.R.Siddhartha Engineering College, Vijayawada. EEE HOD, Dr.M.Uma Vani welcomed the participants and the resource person to the Guest Lecture.
