## DEPARTMENTS OF AEROSPACE AND MECHANICAL ENGINEERING

- **REPORT ON EVENT : Student Certification Program on Finite Element Analysis using ANSYS from 03-02-2020 to 07-02-2020(Five day program)**

Event Type : SDP

Date / Duration : 03-02-2020 to 07-02-2020 (Five day program)

Resource Person : Vinay Kumar - FEA Application Engineer Veda Engineering Solutions-Hyderabad

Name of Coordinator : A NAGESWARA RAO/NAZUMUDDIN SHAIK

Target Audience : IV-B.Tech STUDENTS

Total no of Participants: (37 Mech+14 Aero)= 51

Objective of the event:

This is an certification program on Finite element Analysis (FEA) using ANSYS and is specially meant for Engineering final students. The Finite Element Method (FEM) is a well-established technique for analysing the structural behaviour of mechanical components and systems. In recent years, the use of finite element analysis as a design tool has grown rapidly. ANSYS is a popular and well recognized general purpose finite element modelling package for numerically solving a large range of problems including static, dynamic mechanical, structural analysis (linear and nonlinear), heat transfer and fluid problems, as well as acoustic and electromagnetic problems. It is widely used in the mechanical, automobile, structural, chemical and aeronautical industries.

Outcome of event :

Introduce to the Finite Element Analysis (FEA) concepts and make familiar with the tools and techniques of the ANSYS software package. This SDP aims at providing **complete hands-on training** on FEA analysis. The SDP will help the participants to develop expertise on various aspects of ANSYS for FEA applications. The SDP serves the purpose of bringing together the engineers from various domains such as Structural, Thermal and Fluid Dynamics fields.

Feedback / Suggestions: Increase Laboratory Sessions, Real time case studies

- 1) Dr. D. Veeralah, Professor, Department of CSE
- 2) Dr. D. Jagann Mohan Reddy, Assoc. Professor, Department of CSE

**Co-ordinators:**

- 1) Mr. T.N.V.S. Praveen, Asst. Prof., CSE Dept.
- 2) Mr. P. Vamsi Raidu, Asst. Prof., CSE Dept.

**Organizing Committee:**

All faculty of department of CSE

**Objective of the Program:**

This program is designed to train and develop 1<sup>st</sup> Year Students of CSE Department by equipping them to able to use Python Programming for solving Data Science problems. The main objective of this training program is to provide hands-on familiarity with Python Programming in an on-going process of Data Science.

**Topics to be Covered:**

Given topics will be covered in this training program, but not limited to:

- Basics, Expressions & Control Statements
- IO Operations and Modules
- Troubleshooting and Error Handling
- NumPy and NumPy Arrays
- Data Frames
- Visualization using Matplotlib
- Pandas Built-In Data Visualization
- Plotly, Cufflinks and Geo Mapping with Choropleth Maps
- Decision Trees, Logistic Regression, Linear Regression and Unsupervised Learning

## INTRODUCTION

**Objective of the event:** The main objective of this Two- Week Certificate Training Course is to teach everyone the basics of programming computers using Python. This Specialization builds on the success of the Python for Everybody course and will introduce fundamental programming concepts including data structures, networked application program interfaces, and databases, using the Python programming language. In the Capstone Project, you'll use the technologies learned throughout the Specialization to design and create your own applications for data retrieval, processing, and visualization.

### Schedule of the Course:

**Day 1:** Why We Program? Installing and Using Python, Variables and Expressions, Conditional Code, Functions, Loops and Iterations.

**Day 2:** Strings, Files, Lists .

**Day 3:** Dictionaries, Tuples, Regular expressions, Programs, Explanation of coursera

**Day 4:** Using Databases with Python.

**Day 5:** Capstone: Retrieving, Processing, and Visualizing Data with Python

**Day 6:** Python to Access, Web data, Clear doubts, Assignments, LMS and practice session.

**Day 7:** Databases with Python, Clear doubts, Assignments, LMS and practice session

**Day 8:** Databases with Python Clear doubts, Assignments, LMS and practice session

**Day 9:** Capstone: Retrieving, Processing, and Visualizing Data with Python Clear doubts, Assignments, LMS and practice session.

**Day 10:** Python to Access Web Data Clear doubts, Assignments, LMS and practice session.

**Day 11:** Databases with Python Clear doubts, Assignments, LMS and practice session.

**Day 12:** Capstone: Retrieving, Processing, and Visualizing Data with Python Clear doubts, Assignments, LMS and practice session

## REGISTRATION PARTICULARS

**An Amount of 1300/- need to be paid**

### Program Educational Objectives (PEOs):

Four to Five years after successful completion of graduation students will be able to:

- Pursue a successful career in the area of Information Technology or its allied fields.
- Exhibit sound knowledge in the fundamentals of Information Technology and apply practical experience with programming techniques to solve real world problems.
- Demonstrate self-learning, life-long learning and work in teams on multidisciplinary projects.
- Understand the professional code of ethics and demonstrate ethical behavior, effective communication, and team work and leadership skills in their job.

## ABOUT THE DEPARTMENT

The Department of IT is established in the year 1999 and offers an undergraduate program in Information Technology. The Department has well qualified faculty and good laboratory facilities. All the laboratories are well equipped with state of the art experimental sets, both in quality and quantity, which brings the number of students per batch of two. The department regularly conducts Guest Lectures / Seminars / Workshops / Technical paper contests for the benefit of both faculty and student community.

### Department Vision:

To emerge as one of the most preferred department for the budding engineers, aspiring to be successful IT professionals.

### Department Mission:

- To inculcate team skills and leadership qualities in the student through projects, seminars and group activities.
- To impart quality education with a well-designed curriculum, consistent with industry requirements, that equips the student to face the career challenges.
- To cultivate the qualities of social awareness and service to the humanity among students.
- To extend the student's learning beyond the curriculum, through workshops on cutting edge technologies.

## ABOUT THE INSTITUTE

The LBR College of Engineering (LBRCE) is located at Mylavaram, 40km from Vijayawada on Bhadrachalam highway and is spread over 50 acres of sprawling lush green landscape spotted with orchids and grooves. The place is a hub of leading power plants like VTPS, LANCO Kondapally and Industries like APHMEI, HPCL and Bharath Petroleum.

At LBRCE the focus is on a well balanced approach where most sophisticated infrastructure is supported by a dedicated team of well qualified and experienced faculty. The Management also actively involves in every aspect and career of the faculty and students. LBRCE offers B.Tech Courses in CSE, IT, ECE, EEE, EIE, MECH Engineering and P.G. programmes: M.B.A., M.C.A. & M.Tech Courses in ECE, CSE,IT and Mech. All laboratories are equipped with state of the art facilities backed by advanced computer systems and the latest software. The library has over **30,442 books** spanning **8589 titles**. It subscribes over **100 International Journals, 74 National journals** and **39 Technical and general magazines**. A digital library is a part of this facility with over **4000 VCD collections** produced from IIT'S, EKALAVYA and SONET with **4.5TB of storage capacity server**. The students have access to internet and also to DELNET to supplement their classrooms teaching.

### Institute Vision:

To empower students to become technologically vibrant, innovative and emotionally mature and to train them to face the challenges of the quality-conscious globalized world economy.

### Institute Mission:

- To provide an environment most conducive to learning and to create a stimulating intellectual atmosphere on the campus.
- To achieve Academic Excellence.
- To ensure a holistic development of personality.
- To spread education to rural areas.
- To establish partnership between Institution & Industry.

## ABOUT MYLAVARAM

It is situated at a distance of 45 Km. from Vijayawada. Mylavaram is well connected by rail and road to various places in the state. Participants are advised to alight either at Vijayawada or Kondapalli depending on their travel conveniences.

## FUNDAMENTALS WORKSHOP

Dear Sir/Madam,

Greetings!!

APSSDC initiated to skill the people on *Augmented Reality and Virtual Reality(AR & VR)*. APSSDC has collaborated with **EDURIDGE**

### **Benefits/Stats:**

· Implement your creative thought into an AR & VR Application and publish Applications in the play store, and generate revenue from the play store.

- The current value of the AR market stands at \$3.5 billion.
- By 2020, there should be 1 billion augmented reality users.
- 70% of consumers believe AR can bring them benefits.
- 67% of media planners and buyers want AR/VR ads in digital marketing campaigns.
- Augmented reality users fall into the 16-34 age group.
- The AR / VR industry is on the lookout for young graduates with knowledge on Augmented / Virtual Reality.

### **Career pathways:**

- Internships
- Job Opportunities

### **Eligibility:**

- B.Tech –CSE, IT, ECE, Civil, EEE, Mechanical(2nd and 3rd Year Students)

### **“Automotive Advanced Training”**

Event Type	:	Advanced training on Automotive
Date / Duration	:	16-09-2019 to 21-09-2019/ Six Days
Resource Person	:	K. Dinesh Tej [Project Director Gram Tarang - A System Integrator to Dassault Systemes]
Name of Coordinator	:	Sai Kanth, Tapan Padhy
Target Audience	:	LEVEL - A completed students
Total no of Participants:		9 from ME Department

### **Summary of training:**

APSSDC along with Dassault Systems has started advanced training in Automotive Engineering domain as part of 3DExperience center of excellence. This training has started from 16th Sept at APSSDC-DASSAULT SYSTEMES Mother Hub which is established at Acharya Nagarjuna University. Current 7th Semester students from different colleges across Krishna district have attended the training for one week. The Advanced training has focused on industry-oriented implementation of projects in Automotive. At the end of each day students are able to complete projects such as Class A Styling surface generation (concept design), entire chassis system design, components of body-in-white structure and interior trims with enclosure. The professional training helps students to understand exact process of developing an automotive product in industry, which in turn increases the chances of getting employed. Under leadership of Dr.Ravi Gujjala, CGM-Technical the training has been successfully concluded. Students who completed training have responded positively as this is the first time they are being part of industry replica projects and expressed gladness to APSSDC for organizing such Professional skill development program.

**“Five Day In House Training Program on LABVIEW”**

(19-08-2019 to 24-08-2019)

**About the Program**

LabVIEW (Laboratory Virtual Instrument Engineering Workbench) is a graphical programming environment which has become prevalent throughout research labs, academia and industry. It is a powerful and versatile analysis and instrumentation software system for measurement and automation. Its graphical programming language called G programming is performed using a graphical block diagram that compiles into machine code and eliminates a lot of the syntactical details. LabVIEW offers more flexibility than standard laboratory instruments because it is software based. Using LabVIEW, the user can originate exactly the type of virtual instrument needed and programmers can easily view and modify data or control inputs. The popularity of the National Instruments LabVIEW graphical dataflow software for beginners and experienced programmers in so many different engineering applications and industries can be attributed to the software's intuitive graphical programming language used for automating measurement and control systems.

Building on information taught in LabVIEW Core I, Data Acquisition and Signal Conditioning training teaches the fundamentals of PC-based data acquisition and signal conditioning. Students learn how to perform different types of acquisition and to identify the correct sensor for their measurements. Students also discuss signal conditioning fundamentals and install and configure hardware in classroom-based courses.

NI myRIO is a revolutionary hardware/software platform that gives students the ability to “do engineering” and design real systems more quickly than ever before. Complete with the latest Zynq integrated system-on-a-chip (SoC) technology from Xilinx, the NI myRIO boasts a dual-core ARM® Cortex™-A9 processor and an FPGA with 28,000 programmable logic cells, 10 analog inputs, 6 analog outputs, audio I/O channels, and up to 40 lines of digital input/output (DIO). Designed and priced for the academic user, NI myRIO also includes onboard WiFi, a three-axis accelerometer, and several programmable LEDs in a durable, enclosed form factor.

## ABOUT THE INSTITUTE

The Lakireddy Bali Reddy College of Engineering (LBRCE) was established in the year 1998 by Lakireddy Bali Reddy Charitable Trust, whose architect is Er. Lakireddy Bali Reddy. The institute is established with the sole aim of providing high quality educational opportunities in the field of science, engineering, technology and management. It is spread over 60 acres of sprawling lush green landscape spotted with orchids and grooves. It is approved by AICTE, affiliated to JNTUK, Kakinada and attained autonomous status in the year 2010. It accredited by NAAC. The institute is certified by ISO: 9001-2015. LBRCE has sophisticated infrastructure with dedicated, well qualified and experienced faculty. A separate R&D cell is established in the college to focus on continuous sponsored research. It has various sponsored research projects by various funding agencies. All laboratories are equipped with state-of-the art facilities backed by advanced computer systems with latest software. The library is equipped with adequate volumes of books, journals with digital library facility.

## ABOUT THE DEPARTMENT

The department of Electronics and Instrumentation has started in 2002 with an intake of 60 students. Instrumentation precisely is the measurement and control of various parameters of any system. It offers

undergraduate program accredited by NBA (Tier-I) and NAAC of UGC New Delhi.

The Department has well qualified, dedicated faculty with good laboratory facilities including equipment required for research work. The faculties are actively engaged in research activities in their areas of specialization.

The department faculty are working in various R&D groups like MEMS, Nano technology, Process Control system, Signal Processing.

The schedule of the program include the following.

- ***Introduction to MATLAB***
- ***Basic commands in MATLAB***
- ***Writing code using MATLAB***
- ***Writing of function program***
- ***Application of MATLAB in domain***

### Declaration

The information provided is true to the best of my knowledge. If selected, I agree to abide by the rules and regulations of the course.

**Place:**

**Date:**

**Signature of Student**

**Signature of Head of Institution**  
**(With seal)**

## HOW TO REACH US

Mylavaram is situated at a distance of 40 km. from Vijayawada. Participants can reach Mylavaram by boarding buses at Vijayawada (PN Bus stand) run by APSRTC towards Tiruvur, Kothagudem & Bhadrachalam and city bus service (Bus number 350).

## ELIGIBILITY

Workshop is open to students of B.Tech Engineering all branches, of AICTE approved Engineering colleges.

## REGISTRATION

Application in the prescribed format duly attested by the Head of the Institution should reach the coordinators on or before 19.11.2019. The soft copy of application (scanned copy) can be sent to the pavani.be@gmail.com

**Registration Fee: Rs 100/-**

**Time: 9:00 AM – 4:00PM (4 days)**

## REVIT ARCHITECTURE & STRUCTURE

### Content Overview

Building Information Modeling Software, Revit has become a household work in the AEC industry since 2002. Building Information Modeling (BIM) process and three- Dimensional modelling are being combined together. This training course is intended to introduce students to the user interface and the basic building components of the software that makes it a powerful and flexible structural modeling tool. The goal is to familiarize you with the tools required to create, modify, analyze, and document the parametric model

**Intended audience :** 3rd & 4th Year Students

### Training workflow :

**Revit Architecture:**Revit has changed the building design, drafting and modeling processes. Rich models that Autodesk Revit Architecture provides to make more informed design decisions to support sustainable design, clash detection, scheduling and cost estimation

### **Stage1 :Workshops(Certification training) with Industry certifications**

The objective of workshop is to see that the students are well trained for the prerequisite courses of certification.

**Duration:** 6 days

**Assessments/Practice test:** To ensure that students have understood the content covered during the session; a brief test will be conducted on LMS after every training session. This will help the student understand where he/she needs to improve, make them ready to enter level 1-User certification or Level 2-Professional certification depending on the performance. [LMS](#) ( Learning and Management System) is built from OpenEdx. It contains all course related content such as hand-outs, videos and practice sessions. APSSDC will provide individual student account and Student/college wise analytics are also available.

#### **Professional Level Certification:**

Certified Professional (CP) is the logical credential for advanced and professional software users who possess of real-world Professional software experience.

**Link:** <https://certiport.pearsonvue.com/Certifications/Autodesk/ACP/Overview>

#### **Revit Structure:**

To take full advantage of Building Information Modeling, the Autodesk Revit Structure Fundamentals training course has been designed to teach the concepts and principles from building design through construction documentation using the Autodesk Revit Structure software.

### **Workshops(Certification training) with Industry certifications**

The objective of workshop is to see that the students are well trained for the prerequisite courses of certification.

**Duration:** 5 days

**Assessments/Practice test:** To ensure that students have understood the content covered during the session; a brief test will be conducted on LMS after every training session. This will help the student understand where he/she needs to improve, make them ready to enter level 1-User certification or Level 2-Professional certification depending on the performance. [LMS](#) ( Learning and Management System) is built from OpenEdx. It contains all course related content such as hand-outs, videos and practice sessions. APSSDC will provide individual student account and Student/college wise analytics are also available.

#### **User Level Certification:**

Certified User (CU) certification is an excellent way for students with about real-world User software experience to validate their software skills. This is recognised by employers, and will help students find jobs.

**Clubs:** After Workshops we will initiate clubs with one faculty and two merit students from each year in every College

**Selection of the Merit students for the Club:** At the end of the work shops we will select two merit students from every college based on Written Exam & Tool Test.

### **Advantages to be a member in Club**

- a. We will provide guidance for their Projects.
- b. We will give priority for placement drives conducted by APSSDC
- c. **Eligibility for University Innovation Fellows (UIF)**
- d. Priority for International programs conducted by APSSDC and etc..

## **Course Content & Day Wise Schedule for workshop(Revit Architecture):**

Introduction: Building Information Modeling, Building Information Modeling for AEC and Building Information Modeling Process. Working with Elevation and Section Views, Working with Elevation and Section Views, Dimensions, Doors & Windows. Openings, Modify Tools & Components. Properties and project browser OF Revit Architecture: Uses of properties, Uses of project browser. Managing views. Detailing about Roofs. Shaft Opening. Staircase. Ramp, Railing & Model Text. Schedules, Materials & Section Views. Camera, Walkthrough Tools & Import & Exporting Files. Rendering, Massing & site Tools. Insert Tool, AutoCAD files importing & exporting, Sheet Setting in Revit Architecture.

**Duration:** 6 days

**Assessments/Practice test:** To ensure that students have understood the content covered during the session; a brief test will be conducted on LMS after every training session. This will help the student understand where he/she needs to improve, make them ready to enter level 1-User certification or Level 2-Professional certification depending on the performance. [LMS](#) ( Learning and Management System) is built from OpenEdx. It contains all course related content such as hand-outs, videos and practice sessions. APSSDC will provide individual student account and Student/college wise analytics are also available.

#### **Professional Level Certification:**

Certified Professional (CP) is the logical credential for advanced and professional software users who possess of real-world Professional software experience.

**Link:** <https://certiport.pearsonvue.com/Certifications/Autodesk/ACP/Overview>

#### **Revit Structure:**

To take full advantage of Building Information Modeling, the Autodesk Revit Structure Fundamentals training course has been designed to teach the concepts and principles from building design through construction documentation using the Autodesk Revit Structure software.

### **Workshops(Certification training) with Industry certifications**

The objective of workshop is to see that the students are well trained for the prerequisite courses of certification.

**Duration:** 5 days

**Assessments/Practice test:** To ensure that students have understood the content covered during the session; a brief test will be conducted on LMS after every training session. This will help the student understand where he/she needs to improve, make them ready to enter level 1-User certification or Level 2-Professional certification depending on the performance. APSSDC will provide individual student account and Student/college wise analytics are also available.

#### **User Level Certification:**

Certified User (CU) certification is an excellent way for students with about real-world User software experience to validate their software skills. This is recognised by employers, and will help students find jobs.

## **Professional Level Certification:**

Certified Professional (CP) is the logical credential for advanced and professional software users who possess of real-world Professional software experience.

**Link:** <https://certiport.pearsonvue.com/Certifications/Autodesk/ACP/Overview>

**Clubs:** After Workshops we will initiate clubs with one faculty and two merit students from each year in every College

**Selection of the Merit students for the Club:** At the end of the work shops we will select two merit students from every college based on Written Exam & Tool Test.

### **Advantages to be a member in Club**

- a. We will provide guidance for their Projects.
- b. We will give priority for placement drives conducted by APSSDC
- c. **Eligibility for University Innovation Fellows (UIF)**
- d. Priority for International programs conducted by APSSDC and etc..

## **Course Content & Day Wise Schedule for workshop(Revit Architecture):**

Introduction: Building Information Modeling, Building Information Modeling for AEC and Building Information Modeling Process. Working with Elevation and Section Views, Working with Elevation and Section Views, Dimensions, Doors & Windows. Openings, Modify Tools & Components. Properties and project browser OF Revit Architecture: Uses of properties, Uses of project browser. Managing views. Detailing about Roofs. Shaft Opening. Staircase. Ramp, Railing & Model Text. Schedules, Materials & Section Views. Camera, Walkthrough Tools & Import & Exporting Files. Rendering, Massing & site Tools. Insert Tool, AutoCAD files importing & exporting, Sheet Setting in Revit Architecture.

DEPARTMENT OF MECHANICAL ENGINEERING  
And  
AEROSPACE ENGINEERING

LAKIREDDY BALIREDDY COLLEGE OF  
ENGINEERING (AUTONOMOUS)  
Mylavaram, Krishna (Dist), A.P.-521230

#### ELIGIBILITY

The program is open to B.Tech IV semester  
Mechanical Engineering and Aerospace Engineering  
students.

#### REGISTRATION PARTICULARS

There is no registration fee for enrolling this.

Address for Correspondence:

Mr. J. V. Somi Reddy, *Asst. Professor, ME, 8099877498*  
Mr. P. Dildeep Kumar, *Asst. Professor, ME, 9492103999*

#### HOW TO REACH LBRCE

Mylavaram is situated at a distance of 40 km. from  
Vijayawada. Participants can reach Mylavaram by  
boarding buses (at Vijayawada) run by APSRTC  
towards Tiruvur, Kothagudem & Bhadrachalam and  
city bus services (Bus number 350).

#### ABOUT THE INSTITUTE

The Lakireddy Bali Reddy College of Engineering  
(LBRCE) was established in the year 1998 by  
Lakireddy Bali Reddy Charitable Trust, whose  
architect is Er. Lakireddy Bali Reddy garu. The  
institute is established with the sole aim of providing  
high quality educational opportunities in the field of  
science, engineering, technology and management.  
It is spread over 60 acres of sprawling lush green  
landscape spotted with orchids and grooves. It is  
approved by AICTE, affiliated to JNTUK, Kakinada

and attained autonomous status in the year 2010. It  
attained NAAC accreditation status with 'A' Grade.  
LBRCE has sophisticated infrastructure with  
dedicated, well qualified and experienced faculty. A  
separate R&D cell is established in the college to  
focus on continuous sponsored research. It has  
various sponsored research projects by various  
funding agencies. All laboratories are equipped with  
state-of-the art facilities backed by advanced  
computer systems with latest software. The library is  
equipped with adequate volumes of books, journals  
with digital library facility.

#### ABOUT THE DEPARTMENT

The Department of Mechanical Engineering has come  
into existence in the year 1998. The department is  
accredited by NBA (Tier-I). The department has  
good infrastructure in terms of the state-of-the art  
laboratories, workshops and computer centre as  
required for UG and PG programmes in Mechanical  
Engineering. The strength of the department is well  
qualified and experienced faculty in thermal, design  
and production areas. The faculties are actively  
engaged in research (including funded research)  
activities in their areas of specialization and  
contribute to significance knowledge transfer in their  
fields. The JNTUK has recognised the department as  
"RESEARCH CENTRE" in the year 2014. All the  
laboratories of the department function under this  
centre to carry out research activities as well as  
student projects. The department has advanced  
instruments and equipment like tensometer, wear and  
friction monitor, fatigue tester, metallurgical  
microscope and so on. The Department is  
strengthened by well-established centres like  
Cognitive research centre, Ansys Skill Development  
center (ASD), Dassault Systemes Laboratory and  
ISHRAE students' chapter. The Department  
organizes various skill development programs for  
students to broaden their knowledge horizon.

invites experts from the corporate world, academia to train and guide students for better career opportunities.

#### ABOUT SKILL DEVELOPMENT CENTRE

The Skill Development Centre shall seek to impart professional training to students in order to make them industry-ready through enhancement of skill sets. At a time of rapid changes in the technology front, it will help students to stay updated with the latest technical knowhow, including tools and technologies. The centre imparts training programs in training in various domains as well as soft skills, offered in both blended format as well as Face-to-Face hands-on Training by external and internal organizations for accelerated employability. The Skill Development centre of LBRCE initiates Skill-Enhancement Programs in collaboration with reputed International organizations like Indo-Universal Collaboration for Engineering Education (IUCEE), i2E program from North-eastern University, Boston USA and National agencies such as NME-ICT Remote Centres and Spoken-Tutorial, IIT Bombay, SWAYAM PRABHA, NME-ICT, MHRD, Govt. of India, NPTEL from IITs and Andhra Pradesh skill development corporation (APSSDC). It also regularly organizes workshops, seminars and FDPs for both students and faculty in order to help them upgrade their knowledge and skills levels. The SDC centre also conducts special training programs for slow learners among SC/ST students as a part of the curriculum to help them cope up with the required learning standards. The centre provides special industry-readiness training in Aptitude, Verbal ability as well as Communication & Soft skills drawing expertise from the in-house training resource persons form Centre for Career Guidance & Training (CGT) for better placement of students. Other than using the services of the in-house resource persons, this centre

#### ABOUT THE PROGRAM

This three week in-house summer training program on "Digital Driven Design and Manufacturing on the 3dx Platform" offers knowledge and rudimentary concepts in 3dx modelling using the Dassault Systemes software. Students for getting a job in the sectors of Transportation & Mobility, Aerospace & Defense, Marine & Offshore will benefit greatly from having a knowledge in this type of training.

The concepts that are highlighted during this programme are: Overview on the product design, Simultaneous engineering, Product value improvement, Digital Manufacturing - an Emerging Technology, Future of Industry - Industry 4.0 and various levers, SMART City, Industry need & Employability of Students/Academia, Hands on training for 3D Experience Essentials, Digital Manufacturing, Modeling, Composites, Analysis, Surface based Design, Assembly Design, Transportation & Mobility on 3D Experience Solutions, Aerospace Detail Design, Mastering geometry engineering & structural engineering etc.

#### RESOURCE PERSONS

Experts from Dassault Systemes software.

### ABOUT THE INSTITUTE

The LBR College of Engineering (LBRCE) is located at Mythuvaram, and its spread over 56 acres of sprawling lush green landscape spotted with orchids and grooves. LBRCE received Autonomous status from the academic year 2010-11. Institution certified by ISO 9001:2008 and Accredited by NAAC with 'A' Grade. EEE, ECE and MECH undergraduate programmes are accredited by NBA for two years (Outcome Based Education criteria). LBRCE has a profound focus on research and has 7 advanced labs in various Departments and 4 departments (EEE, ECE, CSE, MECH) are recognized as Research Centers of excellence by JNTUK, Kakinda. The place is a hub of leading power plants like NTPS, LANCO Power and Industries like APHMEIL, HPCL and Bharath Petroleum.

LBRCE has sophisticated infrastructure, supported by a dedicated team of well qualified and experienced faculty. LBRCE offers B.Tech Courses in CSE, Civil, ECE, EEE, EIE, IT, MECH, Aerospace Engineering and P.G. programmes: M.B.A., M.C.A. & M.Tech Courses in EEE, ECE, CSE/IT and Mech. All laboratories are equipped with state of the art facilities backed by advanced computer systems with latest software. The library has over 51,000 books spanning 13,500 titles. It subscribes over 110 National Journals and 55 Technical and general magazines. A digital library is a part of this facility with over 6506 VCD collections produced from IITs, EKALAVYA and SONET. The students have access to 230Mbps dedicated internet line and also to DELNET to supplement their classrooms teaching.

### ABOUT THE DEPARTMENT

The Department of Electrical and Electronics Engineering offers an undergraduate program in Electrical & Electronics Engineering and a Post-graduate program in the specialization of Power Electronics & Drives. The Department has well qualified faculty and good laboratory facilities. EEE Department is recognized as research centre by JNTUK, Kakinda. Department has licensed software MATLAB(R2016a), PSCAD/EMTDC, LABVIEW, ETAP, MULTISIM and DIGISILENT. The department regularly conducts Guest Lectures / Seminars / Workshops / Technical paper contests for the benefit of both faculty and student community.

## INTRODUCTION

Python is basically the delegation of human control function to technical equipment. It is the use of control systems such as computers, PLCs, Microcontrollers to control machinery and processes to reduce the need for human sensory and mental requirements as well. Industrial Automation i.e. to "Automate Industry" is the basic need of almost every type of manufacturing and production unit today. Food/ Beverage, Metal, Mining, Power, Textile, Petrochemical, Machine Manufacturing, Automobile etc are the few examples where we see the automation today.

## OBJECTIVE OF THE PROGRAM

The Main Objective of this Two-week Certificate Training Program is to make the aspiring engineering students acquainted with the conceptual as well as practical knowledge of the Python Language being used to achieve Industrial Automation. The idea of Organizing this Program is to inculcate the basic fundamentals of Python among the students and equip them with employability skills.

## ELIGIBILITY

The program is open to EEE, ECE & EIE UG and PG students of AICTE approved Engineering colleges.

## RESOURCES PERSONS

Experts from APSSDC will act as resource persons.

## REGISTRATION PARTICULARS

Application in the prescribed format duly sponsored by the Head of the Institution should reach the coordinators on or before 26.08.2018. The soft copy of application (scanned copy) can also be sent to the coordinator.

- \* Spot registration is also allowed.
- \* Certificate will be issued at the end of the program to all the participants

## TA & ACCOMMODATION

Participants have to make their own arrangements for travel and lunch. Limited Accommodation is available and will be provided on payment on request.

No TA/DA will be paid to the participants.

## ABOUT MYLAVARAM

It is situated at a distance of 40 km. from Vijayawada and is well connected by rail and road to various places in the country. Participants can reach to Mylavaram by boarding buses run by APSRTC towards Tiruvuru, Kothagudem & Bhadrachalam, city bus services (with number 350).

## REVIT ARCHITECTURE & STRUCTURE

### Content Overview

Building Information Modeling Software, Revit has become a household work in the AEC industry since 2002. Building Information Modeling (BIM) process and three- Dimensional modelling are being combined together. This training course is intended to introduce students to the user interface and the basic building components of the software that makes it a powerful and flexible structural modeling tool. The goal is to familiarize you with the tools required to create, modify, analyze, and document the parametric model

**Intended audience :** 3rd & 4th Year Students

### Training workflow :

**Revit Architecture:**Revit has changed the building design, drafting and modeling processes. Rich models that Autodesk Revit Architecture provides to make more informed design decisions to support sustainable design, clash detection, scheduling and cost estimation

### **Stage1 :Workshops(Certification training) with Industry certifications**

The objective of workshop is to see that the students are well trained for the prerequisite courses of certification.

**Duration:** 6 days

**Assessments/Practice test:** To ensure that students have understood the content covered during the session; a brief test will be conducted on LMS after every training session. This will help the student understand where he/she needs to improve, make them ready to enter level 1-User certification or Level 2-Professional certification depending on the performance. [LMS](#) ( Learning and Management System) is built from OpenEdx. It contains all course related content such as hand-outs, videos and practice sessions. ## REVIT ARCHITECTURE & STRUCTURE

### Content Overview

Building Information Modeling Software, Revit has become a household work in the AEC industry since 2002. Building Information Modeling (BIM) process and three- Dimensional modelling are being combined together. This training course is intended to introduce students to the user interface and the basic building components of the software that makes it a powerful and flexible structural modeling tool. The goal is to familiarize you with the tools required to create, modify, analyze, and document the parametric model

**Intended audience :** 3rd & 4th Year Students

### Training workflow :

**Revit Architecture:**Revit has changed the building design, drafting and modeling processes. Rich models that Autodesk Revit Architecture provides to make more informed design decisions to support sustainable design, clash detection, scheduling and cost estimation

### **Stage1 :Workshops(Certification training) with Industry certifications**

The objective of workshop is to see that the students are well trained for the prerequisite courses of certification.

**Duration:** 6 days

**Assessments/Practice test:** To ensure that students have understood the content covered during the session; a brief test will be conducted on LMS after every training session. This will help the student understand where he/she needs to improve, make them ready to enter level 1-User certification or Level 2-Professional certification depending on the performance. A one week certification program on,

**“IOT Fundamentals 2018-2019”**

**19<sup>th</sup> November, 2018 to 26<sup>nd</sup> November, 2018**

**Certification Agency**

The Certification program “IOT Fundamentals 2018-2019” conducted by APSSDC in association with ECE department, LBRCE. The duration of the program is from 19<sup>th</sup> November, 2018 to 26<sup>nd</sup> November, 2018. Andhra Pradesh State Skill Development Corporation (APSSDC) is a unique organization formed as a Public-Private Partnership (PPP) corporation to promote skill-development & entrepreneurship in the state of Andhra Pradesh. The corporation is incorporated as a Section-8 company (not-for-profit) with a private equity component of 51% and 49% by Govt of AP. The Corporation now serves as the "Executive Agency" for the newly formed Department of Skill Development, Entrepreneurship and Innovation. APSSDC will also serve the important task of providing high quality skilled manpower as part of the "Knowledge and Skills Mission" of GoAP, which is one of the cross-cutting missions among the seven missions formed by the govt to facilitate double digit growth of the state.

# LABVIEW Certification Program "HANDS-ON TRAINING ON myDAQ"

19<sup>th</sup> November, 2018 to 24<sup>th</sup> November, 2018

## About the Program

Building on information taught in LabVIEW Core I, Data Acquisition and Signal Conditioning training teaches the fundamentals of PC-based data acquisition and signal conditioning. Students learn how to perform different types of acquisition and to identify the correct sensor for their measurements. Students also discuss signal conditioning fundamentals and install and configure hardware in classroom-based courses.

Date	9:30 to 11:30	11:45 to 1:00	1:45 to 3:15	3:30 to 5:15	5:30 to 7:30

## LABVIEW Certification Program "HANDS-ON TRAINING ON myRIO"

25<sup>TH</sup> November, 2018 to 30<sup>TH</sup> November, 2018

### About the Program

Building on information taught in LabVIEW Core 1, Data Acquisition and Signal Conditioning training teaches the fundamentals of PC-based data acquisition and signal conditioning. Students learn how to perform different types of acquisition and to identify the correct sensor for their measurements. Students also discuss signal conditioning fundamentals and install and configure hardware in classroom-based courses.

NI myRIO is a revolutionary hardware/software platform that gives students the ability to "do engineering" and design real systems more quickly than ever before. Complete with the latest Zynq integrated system-on-a-chip (SoC) technology from Xilinx, the NI myRIO boasts a dual-core ARM® Cortex™-A9 processor and an FPGA with 28,000 programmable logic cells, 10 analog inputs, 6 analog outputs, audio I/O channels, and up to 40 lines of digital input/output (DIO). Designed and priced for the academic user, NI myRIO also includes onboard WiFi, a three-axis accelerometer, and several programmable LEDs in a durable, enclosed form factor.

Day	9:30 to 11:30	15 min	11:45 to 1:00	45 min	13:45 to 15:15	15 min	15:30 to 17:30
Day-1	Measurement & Automation in Engineering Solutions: What? Why? How?	AM	Introduction NI Embedded Platform - RIO	Lunch	Connecting & Configuring NI myRIO	PM	Hands-on NI myRIO - Accessing on-board devices
Day-2	Hands-on NI myRIO - Creating Stand-alone application		Hands-on NI myRIO - AI, AO & DIO Programming		Hands-on NI myRIO - Accessing Data from Sensor & Logging (AI)		Hands-on NI myRIO - DIO (MXP & MSP), PWM
Day-3	Hands-on NI myRIO - Data Acquisition & Control		Hands-on NI myRIO - Creating User Interface for RT Target		Hands-on NI myRIO - Protocols (SPI, I2C & UART)		Hands-on NI myRIO - Protocols (SPI, I2C & UART)
Day-4	Hands-on NI myRIO - Introduction to FPGA Programming		Hands-on NI myRIO - Sensor Data Acquisition & Calibration in FPGA		Hands-on NI myRIO - Dynamic Signal Acquisition using FPGA (FAD)		Hands-on NI myRIO - Configuring & Connecting myRIO through WiFi
Day-5	Hands-on NI myRIO - Application Development (Wireless Network)		Hands-on NI myRIO - Interfacing Mobile Devices		Hands-on NI myRIO - Interfacing myRIO RT + FPGA		Discussion - NI RIO Platform for Academic Projects & Research

### ABOUT THE INSTITUTE

The Lakireddy Bali Reddy College of Engineering (LBRCE) was established in the year 1991 by Lakireddy Bali Reddy Charitable Trust, whose architect is Er. Lakireddy Bali Reddy gunt. The institute is established with the sole aim of providing high quality educational opportunities in the field of science, engineering, technology and management. It is spread over 60 acres of sprawling lush green landscape spotted with orchids and grooves. It is approved by AICTE, affiliated to JNTUK, Kakinada and obtained autonomous status in the year 2019. It attained NAAC accreditation status with 'A' Grade. The institute is certified by ISO:9001:2015.

LBRCE has sophisticated infrastructure with dedicated, well qualified and experienced faculty. A separate R&D cell is established in the college to focus on continuous sponsored research. It has various sponsored research projects by various funding agencies. All laboratories are equipped with state-of-the-art facilities backed by advanced computer systems with latest software. The library is equipped with adequate volumes of books, journals with digital library facility.

### ABOUT THE DEPARTMENT

The Department of Mechanical Engineering was started in the year 1998. It offers undergraduate courses in Mechanical Engineering with an intake of 80 accredited by NBA(Tier-I) and NAAC of UGC, New Delhi. The Dept is recognized as a Research centre by JNTUK, Kakinada. The Dept offers a Post-graduate program in the specialization of Thermal Engineering. The Department has well qualified, dedicated faculty with good laboratory facilities including equipment required for research work. The faculties are actively engaged in research activities in their areas of specialization.

### ABOUT MYLAVARAM

Mylavaram is situated at a distance of 40 km. from Vijayawada. Participants can reach Mylavaram by boarding buses (at Vijayawada) run by APSRTC towards Tiruvur, Kottagudem & Bhadrachalam and city bus services (Bus number 550).

### ELIGIBILITY

The programme is open to all Final Year B.Tech students of AICTE approved Engineering colleges and industry personnel working in the concerned field in area of Engineering.

### REGISTRATION

Application in the prescribed format duly sponsored by the Head of the Institution should reach the coordinators on or before 15.12.2018. The soft copy of application (scanned copy) can be sent to the mail: hodmeca@lbrce.ac.in.

Note: Brochure & registration form can also be downloaded from our college website: <http://www.lbrce.ac.in>

**Registration Fee:**  
for Students: Rs. 1500/-  
Certificate provided by ANSYS Company

**Note:** Registration fee in cash can be paid on the day of Registration.

The Department of Aerospace Engineering was started in the year 2011. The department offers 4 years undergraduate program, B.Tech in Aerospace Engineering. The department has a team of highly qualified, dedicated and motivated faculty and well equipped laboratories. The department has laboratories, classrooms, faculty rooms, sophisticated lab equipments and well-versed library. The department has a wide range of teaching activities.

### OBJECTIVE OF THE PROGRAMME

In the present era of remarkable technological achievements in the numerical domain new techniques have been applied in the engineering. There is increased necessity to solve complex problems in numerical domains and obtain better results from the simulations. Finite Element Analysis & Computational Fluid Dynamics has become an important tool in furthering a variety of fields of Engineering. The ANSYS is one of the best Multi-physics platforms which cover various interdisciplinary domains such as Mechanical, Aerospace, Electronics, etc.

This SDP aims at providing complete hands-on training on FEA analysis. The SDP will help the participants to develop expertise on various aspects of ANSYS for FEA applications. The FDP serves the purpose of bringing together the engineers from various domains such as Structural, Thermal and Fluid Dynamics fields.

## ABOUT THE INSTITUTE

The Lakireddy Bali Reddy College of Engineering (LBRCE) was established in the year 1998 by Lakireddy Bali Reddy Charitable Trust, whose architect is Er. Lakireddy Bali Reddy garu. The institute is established with the sole aim of providing high quality educational opportunities in the field of science, engineering, technology and management. It is spread over 60 acres of sprawling lush green landscape spotted with orchids and grooves. It is approved by AICTE, affiliated to JNTUK, Kakinada and attained autonomous status in the year 2010. It attained NAAC accreditation status with 'A' Grade.

LBRCE has sophisticated infrastructure with dedicated, well qualified and experienced faculty. All laboratories are equipped with state-of-the art facilities backed by advanced computer systems with latest software. The library is equipped with adequate volumes of books, journals with digital library facility.

## ABOUT THE DEPARTMENT

The department of Electronics and Instrumentation has started in 2002 with an intake of 60 students. Instrumentation precisely is the measurement and control of various parameters of any system. It offers undergraduate program accredited by NBA (Tier-I) and NAAC of UGC New Delhi.

The Department has well qualified, dedicated faculty with good laboratory facilities including equipment required for research work. The faculties are actively engaged in research activities in their areas of specialization.

The department faculty are working in various R&D groups like MEMS, Nano technology, Process Control system, Signal Processing.

In R&D, we got 3 DST projects and 2 UGC projects with a worth of Rs.75 lakhs.

In the department we have advanced laboratory, National MEMS Design Center (MEMS) funded by Indian Institute of Science (IISC) Bangalore through NPMAS program. It is helpful for the students/faculty of all departments to do projects.

## ABOUT THE PROGRAMME

Two weeks certification program mainly focused on "Industrial Automation" (PLC and SCADA) simulation using SI software. The key goal of the workshop is to enable attendees to become more familiar with industrial automation aspects by developing PLC logic, SCADA graphical User Interface and to develop a better understanding of design considerations for monitoring and controlling various process parameters in industries.

VINAY KUMAR

DR. K. APPA RAO

PRINCIPAL

DR. S. PACHI REDDY

PROFESSOR & HOD

MECHANICAL ENGINEERING

DR. P.LOVARAJU

PROFESSOR & HOD

AEROSPACE ENGINEERING

#### COURSE CONTENT

TOOL	TOPICS	WORKSHOP
ANSYS Initiating	Introduction to ANSYS	Tee Junction Meshing
	Meshing Methods	Element System
	Global Mesh Controls	Workshop on Global Mesh Controls
	Local Mesh Controls	Home Assignment "Behavior Method Meshing"
ANSYS Mechanical	Mechanical Desktop	Resolving Control File Error
	General Pre-processing	SO Beam Element Generator
	Meshing in Mechanical	Mesh creation & Control
	Modeling Connections	Contact Offset control
ANSYS Mechanical	Modeling Connections	Joint
	Flange Boundary Conditions	Screw Jack
	Static structure analysis	Constraint Equation
	Thermal Analysis	Beam Connection
ANSYS Mechanical	Introduction to Heat Transfer	Linear Structural Analysis
	Heat Transfer Fundamentals	Steady State Thermal Analysis
	Pre-processing	Thermal Bar
	Boundary Conditions	Welding Cell
ANSYS Mechanical	Steady State Heat Transfer	Thermal Contact
	Nonlinear Thermal Analysis	Modeling System
	Thermal Analysis	Soldered & Full Size Heat Transfer
	Thermal Analysis	Soldering Iron & Phase Change

Lakireddy Bali Reddy College of Engg.

MYLAVARAM - 521 230., Krishna Dt., A.P.

#### ABOUT INSTITUTION

The Lalireddy Bali Reddy College of Engineering (LBRCE) was established in the year 1998 by Lalireddy Bali Reddy Charitable Trust, whose architect is Er. Lokireddy Bali Reddy IAS. The institute is established with the sole aim of providing high quality educational opportunities in the field of science, engineering, technology and management. It is spread over 50 acres of sprawling lush green landscape spotted with orchids and groves. It is approved by AICTE, affiliated to JNTUK, Kakinada and obtained autonomous status in the year 2010. It attained NAAC accreditation status with 'A' Grade. The institute is certified by ISO 9001:2015.

LBRCE has sophisticated infrastructure with dedicated, well qualified and experienced faculty. A separate R&D cell is established in the college to focus on continuous sponsored research. It has various sponsored research projects by various funding agencies. All laboratories are equipped with state-of-the-art facilities backed by advanced computer systems with latest software. The library is equipped with adequate volumes of books, journals and digital library facility.

#### ABOUT THE DEPARTMENT

The Department of Mechanical Engineering was started in the year 1998. It offers undergraduate program in Mechanical Engineering with an intake of 80 accredited by NBA(Tier-I) and NAAC of UGC New Delhi. The Dept is recognized as a Research centre by JNTUK Kakinada. The Dept offers a Post-graduate program in the specialization of Thermal Engineering. The Department has well qualified, educated faculty with good laboratory facilities including equipment required for research work. The faculties are actively engaged in research activities in their areas of specialization.

#### ABOUT MYLAVARAM

Mylavaram is situated at a distance of 40 km. from Vijayawada. Participants can reach Mylavaram by boarding buses (at Vijayawada) run by APSRTC towards Tirumala, Kottagudem & Bhadrachalam and city bus services (bus number 350).

#### ELIGIBILITY

The programme is open to all Past Year B.Tech students of AICTE approved Engineering colleges and industry personnel working in the concerned field of Engineering.

#### REGISTRATION

Application in the prescribed format duly sponsored by the Head of the Institution should reach the coordinators on or before 31.12.2017. The soft copy of application (scanned copy) can be sent to the mail (bhrushya@lbrce.ac.in).

Note: Brochure & registration form can also be downloaded from our college website: <http://www.lbrce.ac.in>

**Registration Fee:**  
for Students: Rs. 1500/-  
certificate provided by for eligible students

**Note:** Registration fee in cash can be paid on the day of Registration.

The Department of Aerospace Engineering was started in the year 2011. The department offers 4 years undergraduate program, B.Tech in Aerospace Engineering. The department has a team of highly qualified, dedicated and motivated faculty and well equipped laboratories. The department has laboratories, classrooms, faculty rooms, sophisticated lab equipments and well versed library. The department has a wide range of teaching activities.

#### OBJECTIVE OF THE PROGRAMME

In the present era of remarkable technological achievements in the numerical domain new techniques have been applied in the engineering. There is increased necessity to solve complex problems in numerical domains and obtain better results from the simulations. Modelling has become an important tool in furthering a variety of fields of Engineering. The CATIA is one of the best Multi-physics platforms which cover various interdisciplinary domains such as Mechanical, Aerospace, Electronic, etc.

This SDP aims at providing **complete hands-on training** on advanced CATIA modeling. The SDP will help the participants to develop expertise on various aspects of CATIA for different applications. The SDP serves the purpose of bringing together the engineers from various domains such as Mechanical and Aerospace domains.

## ABOUT THE INSTITUTE

The Lakireddy Bali Reddy College of Engineering (LBRCE) was established in the year 1998 by LakireddyBali Reddy Charitable Trust, whose architect is Er.LakireddyBali Reddygaru. The institute is established with the sole aim of providing high quality educational opportunities in the field of science, engineering, technology and management. It is spread over 60 acres of sprawling lush green landscape spotted with orchids and grooves. It is approved by AICTE, affiliated to JNTUK, Kakinada and attained autonomous status in the year 2010. It attained NAAC accreditation status with 'A' Grade.

LBRCE has sophisticated infrastructure with dedicated, well qualified and experienced faculty. A separate R&D cell is established in the college to focus on continuous sponsored research. It has various sponsored research projects by various funding agencies. All laboratories are equipped with state-of-the art facilities backed by advanced computer systems with latest software. The library is equipped with adequate volumes of books, journals with digital library facility.

## ABOUT THE DEPARTMENT

TheDepartmentofECE was started in the year 1998. It offers undergraduate program accredited by NBA (Tier-I) and NAAC of UGC New Delhi. The Dept is recognized as a Research Centre by JNTUK Kakinada. The Department has well qualified, dedicated faculty with good laboratory facilities including equipment required for research work. The faculties are actively engaged in research activities in their areas of specialization.

In R&D, we got DST projects and AICTE projects worth of Rs.65 Lakhs. AICTE has sanctioned Rs.10 Lakhs for the modernization of DSP/ECAD/EC Simulation Lab under MODROBS scheme in the year 2010.Signal Processing Lab has MATLAB R16a version,ECAD Lab has advanced FPGA boards Spartan 3E, Spartan6,Virtex 5, Ansys 18,Virtex II PPro for Embedded system design.

## ABOUT THE PROGRAMME

This Program is designed to provide a platform for the students with a view to explore and exchange the information on the progress of research and development in Microstrip patch antenna technology. This course focuses on the knowledge about applications of advanced artificial materials to the antenna design and to create concrete foundation for further implementation of Communication Devices using HFSS software by bringing together the participants and industrial experts to provide a platform to acquaint & share new ideas in the field.

In this course all the participants will have hands-on experience with the antenna simulation tool HFSS and able to design, simulate and solve their Ph.D. work.

## ABOUT THE INSTITUTE

The LBR College of Engineering (LBRCCE) is located at Mylavaram, and is spread over 56 acres of sprawling lush green landscape spotted with creeks and grooves. LBRCCE received Autonomous status from the academic year 2010-11. Institution certified by ISO 9001:2008 and Accredited by NAAC with 'A' Grade. EEE, ECE and MECH undergraduate programmes are accredited by NBA for two years (Outcome Based Education criteria). LBRCCE has a profound focus on research and has 7 advanced labs in various Departments and 4 departments (EEE, ECE, CSE, MECH) are recognized as Research Centers of excellence by JNTUK, Kakinada. The place is a hub of leading power plants like NTPPS, LANCO Power and Industries like APRIEM, HPCL and Bharath Petroleum.

LBRCCE has sophisticated infrastructure, supported by a dedicated team of well-qualified and experienced faculty. LBRCCE offers B.Tech Courses in CSE, Civil, EEL, EEE, EIE, IT, MECH, Aerospace Engineering and PG, programmes: M.B.A., M.C.A. & M.Tech Courses in EEE, ECE, CSE, IT and Mech. All Laboratories are equipped with state of the art facilities backed by advanced computer systems with latest software. The library has over 51,000 books spanning 13,500 titles. It subscribes over 110 National journals and 55 Technical and general magazines. A digital library is a part of this facility with over 6506 VCD collections produced from IITs, EKALAVYA and SONET. The students have access to 20Mbps dedicated internet line and also to EBNET to supplement their classrooms teaching.

### ABOUT THE DEPARTMENT

The Department of Electrical and Electronics Engineering offers an undergraduate program in Electrical & Electronics Engineering and a Post-graduate program in the specialization of Power Electronics & Drives. The Department has well-qualified faculty and good laboratory facilities. EEE Department is recognized as research centre by JNTUK, Kakinada. Department has licensed software: MATLAB, PSCAD/EMTDC, LABVIEW, ETAP, MULTISIM and DISCREET. The department regularly conducts Guest Lectures / Seminars / Workshops / Technical paper contests for the benefit of both faculty and student community.

## INTRODUCTION

ANSYS electromagnetic field simulation helps to design and innovative electrical and electronic products faster and more cost effectively. In today's world of high performance electronics and advanced electrical systems, the effects of electromagnetic fields on circuits and systems cannot be ignored. ANSYS software can uniquely simulate electromagnetic performance of component, system design, and can evaluate temperature, vibration and other critical mechanical effects. This electro-mechanical design helps to achieve system design for advanced communication systems, high-speed electrical devices, sensors, electro-mechanical components etc. -

## OBJECTIVE OF THE PROGRAM

The main objective of this Five-Day Training Program is to make students learn how to implement the concepts and principles of Electromagnetic Fields, Electromechanical Machines, Power Electronics and Control Circuits by using ANSYS software and to apply the concepts to solve real world problems, which enhances their employability skills.

## TOPICS TO BE COVERED

ANSYS: Introduction to ANSYS and solutions to simulation of simple electrical circuits.

ANSYS MAXWELL: Finite element method in Maxwell, Maxwell solution method, Error evaluation, Maxwell design types, RMxprt, Maxwell 2D, 3D, GUI, Solvers, File structures, Directories, Libraries.

ANSYS Electric Machine Designer: Maxwell with ANSYS RMPxprt, is a template-based design tool, RMPxprt calculates machine performance, makes initial sizing decisions, and performs hundreds of what-if analyses in seconds.

ANSYS's electromechanical and power electronics simulation software: Ideal for applications which depend on the robust integration of motors, sensors, and actuators with electronics controls. ANSYS software simulates the

ANSYS solutions for Renewable Energy. Testing for the electro-mechanical performance of a fuel cell stack to optimizing the design of battery reactor and photo-voltaic collectors.

## ELIGIBILITY

The program is open to EEE, ECE & EEEUG and PE students of AICTE approved Engineering colleges.

## RESOURCES PERSONS

Experts from ARK institutions: P. LADHANE, will act as resource persons.

## REGISTRATION PARTICULARS

Application in the prescribed format duly sponsored by the Head of the Institution should reach the coordinators on or before 16.12.2017. The soft copy of application (scanned copy) can also be sent to the coordinator.

Registration Fee (cash payment only) /

Rs.1500, per student (Discount for students having Professional membership = Rs.400/-)

\* Spot registration is also allowed.

\* Certificate will be issued at the end of the program to all the participants by ANSYS.

\* Fee will be collected at the time of registration.

## ACCOMMODATION

Limited Accommodation is available and will be provided on request.

## ABOUT MYLAVARAM

It is situated at a distance of 40 km. from Vijayawada and is well connected by rail and road to various places in the country. Participants can reach to Mylavaram by heading buses run by APSRTC towards Tiruvuru, Kothayyukem & Bhoasrathalam, city bus services (with number 3501).

## INTRODUCTION

Automation is basically the delegation of human control function to technical equipment. It is the use of control systems such as computers, PLCs, Microcontrollers to control machinery and processes to reduce the need for human sensory and mental requirements as well. Industrial Automation i.e. to "Automate Industry" is the basic need of almost every type of manufacturing and production unit today. Food/Beverage, Metal, Mining, Power, Textile, Petrochemical, Machine Manufacturing, Automobile etc are the few examples where we see the automation today. The most used guiding force behind an Automated Industrial Plant is a "Programmable Logic Controller" generally known as a PLC. PLCs along with certain other necessary ingredients like Sensors, Motors, Actuators, Valves, Conveyors, Boilers, SCADA Systems, Computers & many more, makes a real automated manufacturing plant.

## OBJECTIVE OF THE PROGRAM

The Main Objective of this Five-Day Skill Development Training Program is to make the aspiring engineering students acquainted with the conceptual as well as practical knowledge of the Industrial Automation & Latest Technologies being used to achieve Industrial Automation. The idea of Organizing this Five-Day Skill Development Program is to inculcate the basic fundamentals of Automation among the students and equip them with employability skills.

## TOPICS TO BE COVERED

**PLC:** introduction, types, leading hardware and software, logic development, important instruction, Industrial I/Ps & O/Ps, PLC wiring & Industrial project development.

**HMI/MMI:** Introduction, interfacing with PLC, screen development, digital & analog data configuration, analog data scaling, password level, screen display & Industrial project development.

**SCADA:** Introduction, interfacing with PLC, screen development, digital & analog data configuration, analog data scaling, driver selection and configuration, tag creation and configuration & Industrial project development.

**INTERFACING PROJECT:** Complete interface of PLC, HMI, SCADA, AC DRIVE, AC motor, Digital I/Os with a real industrial application.

**AC DRIVE:** Introduction, hardware, parameter setting, speed, direction, acceleration and de acceleration time control of induction motor, interfacing with PLC, multispeed & multi directional control project.

## ELIGIBILITY

The program is open to EBE, ECE & EIE UG and PG students of AICTE approved Engineering colleges.

## RESOURCES PERSONS

Experts from **INDWELL INSTITUTE OF TECHNOLOGY**, Pune will act as resource persons.

## REGISTRATION PARTICULARS

# An Introduction to Programming the Internet of Things (IOT)

Design, create, and deploy a fun IoT device using Arduino and Raspberry Pi platforms. In this Specialization covers embedded systems, the Raspberry Pi Platform, and the Arduino environment for building devices that can control the physical world. In the final Capstone Project, you'll apply the skills you learned by designing, building, and testing a microcontroller-based embedded system, producing a unique final project suitable for showcasing to future employers.

### ABOUT THE INSTITUTE

The Lakireddy Balli Reddy College of Engineering (LBRCCE) was established in the year 1998 by Lakireddy Balli Reddy Charitable Trust, whose motto is Er. Lakireddy Balli Reddy guru. The institute is established with the sole aim of providing high quality educational opportunities in the field of science, engineering, technology and management. It is spread over 60 acres of sprawling lush green landscape spotted with orchids and groves. It is approved by AICTE, affiliated to JNTUK, Kakinada and attained autonomous status in the year 2010. It attained NAAC accreditation status with 'A' Grade. The institute is certified by ISO:9001:2015.

LBRCCE has sophisticated infrastructures with dedicated, well qualified and experienced faculty. A separate R&D cell is established in the college to focus on continuous sponsored research. It has various sponsored research projects by various funding agencies. All laboratories are equipped with state-of-the-art facilities backed by advanced computer systems with latest software. The library is equipped with adequate volumes of books, journals with digital library facility.

### ABOUT THE DEPARTMENT

The Department of Mechanical Engineering was started in the year 1998. It offers undergraduate program in Mechanical Engineering with an intake of 80 accredited by NBA(Tier-I) and NAAC of UGC New Delhi. The Dept is recognized as a Research centre by JNTUK Kakinada. The Dept offers a Post-graduate program in the specialization of Thermal engineering. The Department has well qualified, skilled faculty with good laboratory facilities including equipment required for research work. The studies are actively engaged in research activities in various areas of specialization.

### ABOUT MYLAVARAM

Mylavaram is situated at a distance of 40 km. from Vijayawada. Participants can reach Mylavaram by boarding buses (at Vijayawada) run by APSRTC towards Tiruvur, Kothagudem & Bhadrachalam and city bus services (Bus number 350).

### ELIGIBILITY

The programme is open to all Final Year B.Tech students of AICTE approved Engineering colleges and industry personnel working in the concerned field areas of Engineering.

### REGISTRATION

Application in the precasted format duly sponsored by the Head of the Institution should reach the coordinators on or before 22.07.2017. The soft copy of application (scanned copy) can be sent to the mail (brccece@brcce.ac.in).

Note: Brochure & registration form can also be downloaded from our college website: <http://www.brcce.ac.in>

#### Registration Fee:

for Students: Rs. 1500/-

Certificate provided by ANSYS Company

Note: Registration fee in cash can be paid on the day of Registration.

The Department of Aerospace Engineering was started in the year 2011. The department offers 4years undergraduate program, B.Tech in Aerospace Engineering. The department has a team of highly qualified, dedicated and motivated faculty and well equipped laboratories. The department has laboratories, classrooms, faculty rooms, sophisticated lab equipments and well stocked library. The department has a wide range of teaching activities.

### OBJECTIVE OF THE PROGRAMME

In the present era of remarkable technological achievements in the numerical domain new techniques have been applied in the engineering. There is increased necessity to solve complex problems in numerical domains and obtain better results from the simulations. Finite Element Analysis & Computational Fluid Dynamics has become an important tool in furthering a variety of fields of Engineering. The ANSYS is one of the best Multi-physics platforms which cover various interdisciplinary domains such as Mechanical, Aerospace, Electronics, etc.

This SDP aims at providing **complete hands-on training** on FEA analysis. The SDP will help the participants to develop expertise on various aspects of ANSYS for FEA applications. The FDP serves the purpose of bringing together the engineers from various domains such as Structural, Thermal and Fluid Dynamics fields.

### ABOUT THE INSTITUTE

The Lakireddy Balu Reddy College of Engineering (LBRCE) was established in the year 1991 by Lakireddy Balu Reddy Charitable Trust, whose architect is Er. Lakireddy Balu Reddy guru. The institute is established with the sole aim of providing high quality educational opportunities in the field of science, engineering, technology and management. It is spread over 60 acres of sprawling lush green landscape spotted with exotica and groves. It is approved by AICTE, affiliated to JNTUK, Kakinada and attained autonomous status in the year 2016. It attained NAAC accreditation status with 'A' Grade. The institute is certified by ISO: 9001:2015.

LBRCE has sophisticated infrastructure with dedicated, well qualified and experienced faculty. A separate R&D cell is established in the college to focus on continuous sponsored research. It has various sponsored research projects by various funding agencies. All laboratories are equipped with state-of-the-art facilities backed by advanced computer systems with latest software. The library is equipped with adequate volumes of books, journals with digital library facility.

### ABOUT THE DEPARTMENT

The Department of Mechanical Engineering was started in the year 1998. It offers undergraduate program in Mechanical Engineering with an intake of 80 accredited by NBA (Tier-I) and NAAC of UGC New Delhi. The Dept is recognized as a Research centre by JNTUK, Kakinada. The Dept offers a Post-graduate program in the specialization of Thermal Engineering. The Department has well qualified, dedicated faculty with good laboratory facilities including equipment required for research work. The facilities are actively engaged in research activities in their areas of specialization.

### ABOUT MYLAVARAM

Mylavaram is situated at a distance of 40 km. from Vijayawada. Participants can reach Mylavaram by boarding buses (at Vijayawada) run by APSRTC towards Tiruvur, Kothapalem & Bhadrachalam and city bus services (Bus number 350).

### ELIGIBILITY

The programme is open to all Final Year B.Tech students of AICTE approved Engineering colleges and industry personnel working in the concerned field area of Engineering.

### REGISTRATION

Application in the pre-circulated format duly sponsored by the Head of the Institution should reach the coordinators on or before 09.12.2017. The soft copy of application (scanned copy) can be sent to the mail (coordmce@lbrce.ac.in).

Note: Brochure & registration form can also be downloaded from our college website: <http://www.lbrce.ac.in>

**Registration Fee:**  
for Students: Rs. 150/-  
certificate provided by ANSYS Company for eligible students

**Site:** Registration fee in cash can be paid on the day of Registration.

The Department of Aerospace Engineering was started in the year 2011. The department offers 4 years undergraduate program B.Tech in Aerospace Engineering. The department has a team of highly qualified, dedicated and motivated faculty and well equipped laboratories. The department has laboratories, classrooms, faculty rooms, sophisticated lab equipments and well versed library. The department has a wide range of teaching activities.

## NI Competence Development Program at LBRCE

National instruments, strongly believe in bridging the gap between Industry and Academia. In this connection National instruments started "NI Competence Development Program (CDP)" at Lakireddy Balireddy college of Engineering, Mylavaram to encourage the students to "Do Engineering" with Graphical System Design Platform of NI.

### Key Benefits of NI LabVIEW Academy based CDP program at LBRCE Campus:

1. NI will train LBRCE faculties on LabVIEW software platform & Measurement and Automation hardware platform.
2. NI will recognize LBRCE as authorized training and certification centre to conduct LabVIEW Core 1 & 2 courses at campus for the internal and external students.
3. After the successful completion of the course, LBRCE can issue certificate with NI logo to the participants.

## NI Competence Development Program at LBRCE

National instruments, strongly believe in bridging the gap between Industry and Academia. In this connection National instruments started "NI Competence Development Program (CDP)" at Lakireddy Balireddy college of Engineering, Mylavaram to encourage the students to "Do Engineering" with Graphical System Design Platform of NI.

### Key Benefits of NI LabVIEW Academy based CDP program at LBRCE Campus:

1. NI will train LBRCE faculties on LabVIEW software platform & Measurement and Automation hardware platform.
2. NI will recognize LBRCE as authorized training and certification centre to conduct LabVIEW Core 1 & 2 courses at campus for the internal and external students.
3. After the successful completion of the course, LBRCE can issue certificate with NI logo to the participants.
4. After the Successful completion of the course, the students can appear for globally recognized certification exam CLAD and passing the exam will enable the students to get job in core engineering industries.
5. The same facility can be extended to provide consultancy for Small and Medium enterprises (SMEs).

NI Competence Development Program (CDP) consists of 6 modules and LBRCE have initiated the program to ECE and EIE students. 80 students from II/IV B.Tech and 80 students from III/IV B.Tech who have CGPA of 8.0 and above, have registered and undergone Module -1 training for 5 days at NI LABVIEW EXCELLENCE CENTER in the campus.

II/IV B.Tech (ECE&EIE) have undergone training from 14-10-2016 to 19-10-2016

III/IV B.Tech (ECE&EIE) have undergone training from 24-10-2016 to 28-10-2016

And

Module-2 for II/IV B.Tech (ECE&EIE) will commence for 9-12-2016.

### ABOUT THE INSTITUTE

The LBR College of Engineering (LBRCE) is located at Mylavaram, and is spread over 56 acres of sprawling lush green landscape spotted with orchids and grooves. LBRCE received Autonomous status from the academic year 2010-11. Institution certified by ISO 9001:2008 and Accredited by NAAC with 'A' Grade. EEE, ECE and ME undergraduate programmes are accredited by NBA for two years (Outcome Based Education criteria). LBRCE has a profound focus on research and has 7 advanced labs in various Departments and 4 departments (EEE, ECE, CSE, MECH) are recognized as Research Centers of excellence by JNTUK, Kakinada. The place is a hub of leading power plants like NTPPS, LANCO Power and Industries like APHMEI, HPCL and Bharath Petroleum.

LBRCE has sophisticated infrastructure, supported by a dedicated team of well qualified and experienced faculty. LBRCE offers B.Tech Courses in CSE, Civil, ECE, EEE, EIE, IT MECH, Aerospace Engineering and P.G. programmes: M.B.A., M.G.A, & M.Tech Courses in EEE, ECE, CSE, IT and Mech. All laboratories are equipped with state of the art facilities backed by advanced computer systems with latest software. The library has over 51,000 books spanning 13,500 titles. It subscribes over 110 National journals and 55 Technical and general magazines. A digital library is a part of this facility with over 6506 VCD collections produced from IITs, EKALAVYA and SONET. The students have access to 230Mbps dedicated internet line and also to DELNET to supplement their classrooms teaching.

### ABOUT MYLAVARAM

It is situated at a distance of 40 km. from Vijayawada and is well connected by rail and road to various places in the country. Participants can reach to Mylavaram by boarding buses run by APSRTC towards Tiruvuru, Kolhagudem & Bhadrachalam, city bus services (with number 350).

## INTRODUCTION

The Main Objective of this Five-Day Skill Development Program is to make the aspiring engineering students acquainted with the conceptual as well as practical knowledge of the Industrial Automation & Latest Technologies being used to achieve Industrial Automation. The idea of Organizing this Five-Day Skill Development Program is to inculcate the basic fundamentals of Automation among the students and provide them with a platform to work on, in the near future.

The most used guiding force behind an Automated Industrial Plant is a "Programmable Logic Controller" generally known as a PLC. PLCs along with certain other necessary ingredients like Sensors, Motors, Actuators, Valves, Conveyors, Boilers, SCADA Systems, Computers & many more, makes a real automated manufacturing plant.

### Topics to be covered:

**PLC:** introduction, types, leading hardware and software, logic development, important instruction, Industrial VPs & O/Ps, PLC wiring & Industrial project development.

**HMI/MMI:** Introduction, interfacing with PLC, screen development, digital & analog data configuration, analog data scaling, password level, screen display & Industrial project development.

**SCADA:** Introduction, interfacing with PLC, screen development, digital & analog data configuration, analog data scaling, driver selection and configuration, tag creation and configuration & Industrial project development.

**AC DRIVE:** Introduction, hardware, parameter setting, speed, direction, acceleration and deceleration time control of induction motor, interfacing with PLC, multispeed & multi directional control project.

**INTERFACING PROJECT:** Complete interface of PLC, HMI, SCADA, AC DRIVE, AC motor, Digital I/Os with a real Industrial application.

## ELIGIBILITY

The program is intended for

- > Students from engineering background - Freshers pursuing or having B.Tech degree in EEE/EIE/ECE/MECH
- > Working Professionals to enhance their knowledge
- > Diploma Students

## REGISTRATION PARTICULARS

Application in the prescribed format duly sponsored by the Head of the Institution should reach the coordinators on or before **23.09.2016**. The soft copy of application (scanned copy) can also be sent to the coordinator.

\* Spot registration is also allowed.

## FEE & CERTIFICATION

Registration Fee (Cash payment only)

**Rs.800/- for internal participants**

**Rs. 900/- for external participants**

\* A certification will be issued at the end of the program to all the participants

**\*Fee will be collected at time of registration.**

## ACCOMMODATION

Participants have to make their own arrangements for travel and lunch. Limited Accommodation will be provided on payment on request.

No TA/DA will be paid to the participants.

## Resource Persons

Experts from **INDWELL INSTITUTE OF TECHNOLOGY**, Pune will act as resource persons.

## INTRODUCTION

A database is an organized collection of data. A relational database, more restrictively, is a collection of schemas, tables, queries, reports, views, and other elements. Database designers typically organize the data to model aspects of reality in a way that supports processes requiring information, such as (for example) modelling the availability of rooms in hotels in a way that supports finding a hotel with vacancies. A database-management system (DBMS) is a computer-software application that interacts with end-users, other applications, and the database itself to capture and analyse data. A general-purpose DBMS allows the definition, creation, querying, update, and administration of databases. A database is not generally portable across different DBMSs, but different DBMSs can interoperate by using standards such as SQL and ODBC or JDBC to allow a single application to work with more than one DBMS. Computer scientists may classify database-management systems, according to the database models that they support, the most popular database systems since the 1980s have all supported the relational model - generally associated with the SQL language. Sometimes a DBMS is loosely referred to as a "database".

### Course Contents

- Overview of Data bases
- Design and modelling
- Languages
- Storage and security
- Transactions and concurrency
- Backup and restore
- Testing

## RESOURCES PERSONS

Resource persons are drawn from premier Institutions i.e. IIT, IISc, IIT, other premier institutions & from industry

## ELIGIBILITY

The programme is open to all the CSE/TMCA dept. faculty members, UG and PG students and Research scholars in the area of all AICTE approved Engineering colleges.

## REGISTRATION PARTICULARS

Application in the prescribed format duly sponsored by the Head of the Institution should reach the coordinator on or before 10<sup>th</sup> April, 2016. Registration fee of Rs.1000/- is to be sent along with the application form in favour of "Coordinator of workshop payable at Mylavaram, drawn on any authorized bank. ## ABOUT THE INSTITUTE

The Lakireddy Balireddy College of Engineering (LBRCE) is located at Mylavaram, 40km from Vijayawada on Bhadrachalam highway and is spread over 50 acres of sprawling lush green landscape spotted with orchids and groves. One of the good architects of the LBRCE is Autonomous status from the academic 2010-11. The place is a hub of leading power plants like VTPS, LANCO Kondepally and Industries like APHTEL, HPCL and Bharath Petroleum.  
At LBRCE the focus is on a well balanced approach where most sophisticated infrastructure is supported by a dedicated team of well qualified and experienced faculty. The Management also actively involves in every aspect and career of the faculty and students. LBRCE offers B.Tech Courses in CIVIL, CSE, IT, ECE, EEE, EIE, MECH Engineering and P.G. programmes: M.B.A., M.C.A. & M.Tech Courses in ECE, CSE, IT and Mech. All laboratories are equipped with state of the art facilities backed by advanced computer systems and the latest

software. The library has over 30,442 books spanning 8589 titles. It subscribes over 100 International Journals, 74 National Journals and 39 Technical and general magazines. A digital library is a part of this facility with over 4000 VCD collections produced from I.T.S., EKALAVYA and SONET with 4.5TB of storage capacity server. The students have access to internet and DELNET to supplement their classroom teaching.

## ABOUT MYLAVARAM

It is situated at a distance of 40 Km from Vijayawada. Mylavaram is well connected by rail and road to various places in the state. Participants are advised to alight either at Vijayawada or Kondepally depending on their travel conveniences.

## INTRODUCTION

Windows 8 is a computer operating system developed by Microsoft. Windows 8 introduced major changes to the operating system's platform and user interface to improve its user experience on tablets, where Windows was now competing with mobile operating systems, including Android and iOS. In particular, these changes included a touch-optimized Windows shell based on Microsoft's "Metro" design language, the Start screen (which displays programs and dynamically updated content on a grid of tiles), a new platform for developing "apps" with an emphasis on touchscreen input, integration with online services (including the ability to synchronize apps and settings between devices), and Windows Store, an online store for downloading and purchasing new software. Windows 8 added support for USB 3.0, Advanced Format hard drives, near field communications, and cloud computing. Additional security features were introduced, such as built-in antivirus software, integration with Microsoft SenseScreen phishing filtering service and support for UEFI Secure Boot on supported devices, with UEFI firmware, to prevent malware from infecting the boot process.

Organized by:

## ISTE STUDENTS CHAPTER

LAKIREDDY BALI REDDY COLLEGE OF ENGINEERING  
MYLAVARAM - 521230

## INTRODUCTION

Android delivers a complete set of software for mobile devices: an operating system, middleware and key mobile applications. Android was built from the ground-up to enable developers to create compelling mobile applications that take full advantage of all a handset has to offer. It was built to be truly open. For example, an application can call upon any of the phone's core functionality such as making calls, sending text messages, or using the camera, allowing developers to create richer and more cohesive experiences for users. Android is built on the open Linux Kernel. Furthermore, it utilizes a custom virtual machine that was designed to optimize memory and hardware resources in a mobile environment. Android is open source; it can be liberally extended to incorporate new cutting edge technologies as they emerge. The platform will continue to evolve as the developer community works together to build innovative mobile applications.

### Course Contents:

- Overview of Android technologies
- Applications of App development in various outlets
- Usability of application
- Various platforms to develop android applications.
- Server and user domains
- Integrating with servers
- Introduction database connections
- Sample Project

## RESOURCES PERSONS

Resource persons are drawn from premier Institutions i.e. IIT, NIT, IIT, other premier Institutions & from industry

## ELIGIBILITY

The programme is open to all the CSE/IT/MCA dept. faculty members, UG and PG students and Research scholars in the area of all AICTE approved Engineering colleges.

## REGISTRATION PARTICULARS

Application in the prescribed format duly sponsored by the Head of the Institution should reach the coordinator on or before 10<sup>th</sup> July, 2015. Registration fee of Rs.1000/- is to be sent along with the application form in favour of "Coordinator of workshop payable at Mylavaram, drawn on any nationalized bank. Boarding & lodging will be provided to all the participants free of cost at LBRCE hostels on request.

## ABOUT THE DEPARTMENT

The Department of CSE is established in the year 1998 and offers an undergraduate program in Computer Science & Engineering. The Department has well qualified faculty and good laboratory facilities. All the laboratories are well equipped with state of the art experimental sets, both in quality and quantity, which brings the number of students per batch of two. The department regularly conducts Guest Lectures / Seminars / Workshops / Technical paper contests for the benefit of both faculty and student community.
